**A NOTE ABOUT COLOR**

Every computer monitor and web browser will display colors differently. Viewing colors digitally may not show the color exactly as it will appear when printed. This also applies to home printers, your home printer will not provide an accurate representation of color. We offer an illustrious palette of colors, however if there is a very specific color you would like, we are more than happy to match a paper swatch, fabric swatch, or anything you want, just send it on over!
